GET ORGANISED™

In 3 steps...

1 **CHOOSE YOUR
STORAGE**
Storages for all needs.

2 **CHOOSE YOUR
TOOL SETS**
Your kit. Your way.

3 **ORGANISE
YOUR KIT**
Optimise your workflow.

GET ORGANISED™ FOR A BETTER WORKFLOW

There are several benefits to a well-organised hand tool solution:

Time Saving: An organised tool storage system can help you save time by reducing the time you spend searching for tools. When you have a designated spot for every tool, you can quickly locate the one you need.

Increased productivity: An organised workspace can help you work more efficiently and effectively. When you have a clear idea of where each tool is located, you can work faster, and the time you save can be used to complete more tasks.

Improved safety: A disorganised tool storage system can lead to accidents, such as tripping or falling, and injuries caused by misplaced tools. An organised system, on the other hand, reduces the chances of accidents and ensures that each tool is in its designated place, making it less likely to be left lying around where it could cause harm.

Cost-effective: An organised tool storage system can help you avoid buying tools you already have or replacing lost ones, saving you money in the long run.

Better tool longevity: When tools are stored properly, they are less likely to suffer damage from being knocked around or exposed to moisture or extreme temperatures. This means that they will last longer and perform better.

Sustainability: When you Get Organised™ with our long-lasting tools, you minimize the need to purchase replacements. That is sustainability in a nutshell.

1 CHOOSE YOUR STORAGE

Storages for all needs.

TengTools tool boxes and tool cabinets have been designed to meet the high demands made by professionals from all over the world. No details are left to chance when our tool boxes and roller cabinets are manufactured.

Meet The Beast
13 drawers, ball bearing slides, combo lock, and a wooden top. Build your ultimate toolkit with TT or FOAM Series. Unleash organisation!

2 CHOOSE YOUR TOOL SETS

Your kit. Your way.

The TT Series offers a space-saving tool control system allowing you to fit more tools in each drawer. With our wide assortment you can build some of the largest tool kits in the market. The tool trays are made of recyclable plastic that is easy to clean and are ideal for use in dirty or high moisture environments.

TT SERIES

Space-saving: The TT Series allows you to fit more tools in each drawer.

Durability: TT Series tool trays are made from a durable recyclable plastic that can withstand heavy use and are resistant to wear and tear.

Easy to clean: TT Series tool trays can be easily wiped clean with a damp cloth, making them simple to maintain and keep clean.

Lightweight: TT Series tool trays are lightweight, making the toolkit easier to move around and transport as required.

Corrosion-resistant: TT Series tool trays are resistant to corrosion, making them ideal for use in humid or damp environments.

FOAM SERIES

- Protection:** FOAM Series tool trays provide a protective layer between the tools and the storage solution, helping to prevent damage and scratching.
- Organisation:** Each tool has its own place with its description imprinted in the 3-coloured foam. The contrasting colours make it easy to identify tools and see when a tool is missing.
- Customisability:** We can provide a bespoke custom FOAM Series toolkit based around your existing tools and equipment. Contact your local retailer for more information.
- Safety:** FOAM Series tool trays can also help reduce the risk of injury by keeping sharp or dangerous tools secure and separated from other tools.
- Cold environments:** The high quality FOAM stays soft and flexible even in cold environments and gives the tool kit a premium look.
